## CURRENT SITUATION

### Current Situation:

For tonight, light and variable winds are expected. At lower elevations, relative humidity recovery will be good. Across the ridges and upper slopes, humidity recovery will remain poor. Firefighting resources will continue to mop up and patrol. Fire suppression repair teams are actively engaged working around the fire perimeter and affected areas. Unburned interior islands as well as burned structures adjacent to control lines will be monitored to prevent spread. Crews remain diligent in providing public service to residents as they return to their homes. Structures destroyed and damaged have been validated by damage assessment teams. Currently 65% of the burn assessment is complete.
